Dear Sirs

Ref - PLANNING APPLICATION – The Lodge, West Street, Ewell 19/00801

We are very concerned and wish to object to this Planning Application. The application is a follow-on to the recently approved works ref 19/00015 for 3 new adjacent houses in West Street. This application represents a continuation of design specifications for the proposed flats and houses.

The application includes for the demolition of the park's lodge. Although not a historic building it is a local landmark and defines the entrance to the Gibraltar Recreation Ground.

This further proposed development alongside the 3 new houses will cause an over development in the locality and is not compatible within this area. The units are condensed into the footprint of the site area and give minimal garden, amenity space and parking areas. New residents and their visitors would park in West Street, which already is congested with commuters to Ewell West Station.

The proposed site is located within the delightful Ewell Village Conservation Area. We note that the proposed demolition works and new build conflicts with the requirements of Schedule 4, mainly regarding the view fronting the highway.

We are also concerned about the safety of the pedestrians accessing the park. At present there is a wide clear entrance with clear sightings. The proposed new units will restrict this view and along with additional car parking could cause a safety issue. This could be a danger to the many children entering and exiting the park.

There will be a distinct effect on the local landscape, going from 'green' gardens, trees and shrubs to a solid residential block.

In summary, we strongly object to this application and suggest that the previous adjacent approved application should represent the conclusion of the building works on this narrow stretch of land.

Yours sincerely

Bob Hollis (On behalf of The Epsom Civic Society)
